### DETAILED ACTION

1. This Office Action responds to the Amendment filed 16 November 2006. By this amendment, claim 14 is amended and claim 17 is canceled. Note that the finality of the Office Action dated 16 August 2006 is withdrawn.

#### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 14 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by **Harvilchuck et al** (USPN 3,994,793).

Regarding claim 14, **Harvilchuck et al** disclose a method for manufacturing a semiconductor device comprising:

providing a substrate; forming a photoresist layer over the substrate; forming a conductive layer over the photoresist layer; and simultaneously removing the photoresist layer and the conductive layer by etching [see col. 1, lines 40-47].

Regarding claim 16, **Harvilchuck et al** disclose the method of claim 14, furthermore wherein the conductive layer is a metal [see col. 1, lines 40-47].

#### *Claim Rejections - 35 USC § 103*

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 2813

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over **Harvilchuck et al** (USPN 3,994,793) in view of **Cleeves** (USPN 6,004,874). **Harvilchuck et al** disclose the method of claim 14. **Harvilchuck et al** do not disclose wherein the photoresist is a positive photoresist or a negative photoresist. **Cleeves** discloses that a photoresist may be either positive or negative. It would have been obvious to one of ordinary skill in the art at the time of invention to use either a positive or a negative photoresist because they are known equivalents in the art.

*Allowable Subject Matter*

6. Claims 1-13 are allowed for reasons deemed to be of record.

*Response to Arguments*

7. Applicant's arguments with respect to claims 14-16 have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the

Art Unit: 2813

THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
